Well, if you got one for 146.4(d) (for a Class VI well), that would definitely be a new wrinkle!
:)

Here is a copy that has the tables for the 146.4(a), (b)(1)-(3), and (c) criteria. It doesn't have
(b)(4) -- I don't believe that we have created a Class III checklist yet.

I don't think this is it, it does not have the rest of the 146.4 criteria in it – (b)(1-4) and (c) and (d)
We will be getting some packages trying to qualify for the other criteria.

At the meeting with the state yesterday the Water Board indicated they had developed a checklist. I asked for it and they've sent it, attached. Would someone kindly send me a clean Class II checklist so I can return the favor? I cannot find a clean one in my records. Thanks!! Also I've not looked at this yet but thought I would pass along.

Hello,

Attached is the Aquifer Exemption completeness checklist we have drafted that we discussed in the meeting today.
